# Filament Storage Policy

Filament racks are provided for member use.
Our space is limited!   Please only store materials for **Active** projects.

- **Incorrectly labeled or out of date items will be moved to General Use each month! If you want to store here, make sure it is labeled and up to date!**

- Members may keep up to 5 rolls of filament in the 3D Printing area

- The racks on the main storage wall are for General Member Use.

- Racks to the right of the door are for Member Storage.

- The labeled DANGER area holds Incorrectly labeled or expiring items.
  These will be relabeled and moved to General Use at the end of each month.

- Filament spools should be placed on the racks directly, or in a dry box.
  Dry bags are OK if necessary.

- Please recycle or dispose of all other packaging. No Cardboard Boxes please!

- Please do not store Hazardous or Radioactive materials.

- Stored filament must be labeled with the member's **Slack** handle.

- Stored filament must also have a Monthly label sticker.

- Monthly labels on each spool will need to be updated each month.

- Labels and stickers should be placed on the spool, rather than the packaging.

- Labels are inspected during Hack Denhac day each month. Any expired or unlabeled items will be moved to the marked DANGER area.

The monthly labels are provided by Denhac, and may be found to the left of the storage racks..

Thank You!
